“Looking back to the future of dermato-epidemiology”

A 30-year research experience in Bergamo and a 20-year long collaboration in Europe

March 12th – “Looking back to the future of dermato-epidemiology” Symposium

8:50 Welcome - Carsten Flohr & Sinead Langan

9:00-10:10 The international burden of skin disease

Keynote lecture (via Webinar): Rod Hay, Chair GBD Skin Disease Project ‘Lessons from the Global Burden of (Skin) Disease Project’ (30 mins)

Pieter Jan Coenraads. The epidemiology of contact dermatitis (20 mins)

Thomas Diepgen. The importance of occupational dermatology (20 mins)

10:10-10:30 Coffee Break

10:30-13:50 Lessons from multi-centre studies and research networks

Luigi Naldi. The GISED experience (20 mins)

Hywel Williams. The UK Clinical Trials Network & International Federation of Clinical Trial Networks (20 mins)

Ignacio Garcia Doval. Lessons from PSONET (20 mins)

Tamar Njisten. The Rotterdam Cohort Study (20 mins)

Phyllis Spuls. Pragmatic randomised controlled trials (20 mins)

Sinead Langan. The RECORD initiative (Reporting of studies Conducted using Observational Routinely-collected Data) (20 mins)
Carsten Flohr. Keys to successful multi-centre studies (20 mins)

**12:50-13:00 Coffee Break**

**Prevention of skin disease – a reality?**

Jean Jacques Grob. Perspectives with prevention and treatment of Melanoma (20 mins)

Jan Nico Bouwes-Bavinck. Prevention of skin disease in transplant patients (20 mins)

Ake Svensson: Primary prevention of atopic eczema: is it feasible? (20 mins)

Meeting Closure

**14:00-15:00 Lunch**

**15:00-18:30**
Short podcasts on selected topics from the Webinar conference in parallel to Work in subgroups – projects discussed on Day 1

**March 13**

**9:00-12:30**
Round Table: Clinical and Epidemiologic Research in Dermatology – Quo vadis?

**12:30-13:00**
Meeting Closure
